

Brilliant Brainstorm Intelligence, LLC

We build the system first, then deploy AI that can be explained, audited, and proven.

OVERVIEW

Brilliant Brainstorm Intelligence is a veteran-led technology and enterprise AI firm. BBI builds AI systems an organization can actually verify: governed agents, human-in-the-loop workflows, and the data remediation work that has to happen before any of it is trustworthy. Most enterprise AI fails before the model is ever the problem — it fails in the condition of the data and the absence of a traceable decision record. BBI's practice starts there, designing human approval gates and traceability in from the outset — consistent with the oversight and documentation requirements OMB Memorandum M-26-04 has imposed on federal AI use since January 1, 2026.

CORE COMPETENCIES

- **AI readiness assessment & data remediation** — diagnostics and data-quality repair performed before any model is deployed (541512, 541611)
- **AI governance & compliance documentation** — impact assessments, agent oversight design, human approval gates, traceable decision records (541611, 541618)
- **ERP transformation & operational data quality** — Sage 100 practitioner experience; cutover validation, inventory-to-GL reconciliation, manufacturing reporting (541512, 541618)
- **Cloud architecture & enterprise systems design** — Azure Solutions Architect Expert; integrating AI into existing stacks rather than around them (541512, 541511)
- **Business process & workflow improvement** — Lean Six Sigma Black Belt; for organizations on legacy systems and manual processes (541611, 541618)
- **Workforce AI-literacy training & executive briefings** — instructor-led and self-paced curriculum for federal managers and technical staff (611430, 611420)
- **Custom internal applications, dashboards, and workflow tools** (541511, 541519)
- **Project management & documentation support** — PMP and PMI-ACP credentialed (541611)

DIFFERENTIATORS

- **The data gets fixed first.** Readiness diagnostics run before deployment, because the common failure is not the model.
- **Evidence, not assertion.** Engineering work is published under version control with automated security scanning, typed validation, and an enforced test-coverage threshold — inspectable rather than described.
- **Operator background, not only advisory.** Six years inside an ERP system as a practitioner, four years in operations. Cloud architecture, AI engineering, process improvement, and program management credentialed in one principal.
- **Human authority is architectural,** not a policy bolted on after delivery.
- **Fixed milestone pricing.** Scope and cost are set at the outset, which puts the risk of efficiency on BBI rather than the client.

PROOF

BBI is a new entity and claims no past performance. In its place, the engineering work is public and inspectable today:

- AI Readiness Diagnostic Kit, public release v0.1.0, Apache-2.0 licensed — github.com/.../bbi-ai-readiness-diagnostic-kit
  
- Public engineering roadmap — github.com/orgs/.../projects/1
- Engineering controls in force: PR-only delivery to main, required status checks, CODEOWNERS, CodeQL scanning, secret scanning with push protection, dependency monitoring, OpenSSF Scorecard, static typing, and automated tests against an enforced coverage threshold.
- Published technical writing on evidence-first AI implementation — tmgilliam.github.io

IDENTIFIERS

Legal Name	Brilliant Brainstorm Intelligence, LLC
Structure	Single-member Delaware LLC
Formed	May 12, 2026 · DE File 10627281
UEI	XSZLCMSK1R65
CAGE	243M7
SAM.gov	Active · renews 2027-08-13
Primary NAICS	541512
Additional NAICS	541511 · 541519 · 541611 · 541614 · 541618 · 541690 · 611420 · 611430 Submitted 9/12/2026 — SAM update processing, not yet Active

HOW AGENCIES BUY

- Open market / SAM opportunity
- Prime subcontract
- **GSA MAS IT — not held**

SOCIO-ECONOMIC STATUS

Status	Basis
VOSB	Qualifying basis · application planned
SDVOSB	Qualifying basis · application planned
WOSB	Qualifying basis · application planned
CA DGS SB / DVBE	Future pathway · gated on CA foreign qualification

BBI holds none of the above today and claims none.

FOUNDER

- Microsoft Certified: Azure Solutions Architect Expert (AZ-305), Azure Administrator Associate (AZ-104), Azure AI Engineer Associate (AI-102), Azure Fundamentals (AZ-900) — Active
- PMP · PMI-ACP · Lean Six Sigma Black Belt — Active
- Post Graduate Program in AI & Machine Learning, UT Austin McCombs — Active
- ERP Certificate, Univ. of Scranton (2015) · DBA, Walden University (2022) · MBA, Project Management (2012)
- U.S. Navy veteran, former U.S. Army Reserve. SBA Boots to Business Revenue Readiness graduate, August 2026. Credential verification available on request.
